BRINGING OPERATIONAL EXCELLENCE
& DATA-DRIVEN DECISIONS

> Increased team productivity

> Information accuracy & accessibility

> Sourcing & Supply reactivity

> Time-to-market reduction

> Products margin & quality improvement

> Better suppliers performance

VALUE

> **THE RIGHT BUFFERS** : reduce « wrong inventory » with real-time visibility and end-to-end supply chain management

> **SPENDING TIME ON PROBLEM SOLVING** : shifting from 80% data gathering to 20% to focus on problem solving and data-driven decisions making

> **ON-TIME DELIVERIES**: better sourcing using historical and integrated suppliers performance analysis and cross-partners visibility to increase product availability

> **REDUCE SUPPLY CHAIN ISSUES** : reducing crisis-driven management by addressing problems before they come (early warning and predictive management)

A MODULAR OFFER to ensure A QUICK ROI and a PROGRESSIVE STRUCTURATION from product conception to warehouse delivery.
